# STATE OF CALIFORNIA

## Bid Specification Double Rack Oven, Gas and Double Oven Rack

7310-99

Department of Corrections & Rehabilitation

### 1. Scope

This specification covers the requirements for double rack, natural gas heated, rack oven and stainless steel double oven rack. Gas oven and rack equipment shall be used in State's prison/rehabilitation facilities.

### 2. Applicable Specifications

Specifications and standards (latest editions) referenced in this document in effect on the opening of the invitation for bid form a part of the specification where referenced.

- 2.1 The bidder shall comply with all applicable Federal, State, and local government codes and requirements e.g. State Title-8, Title-24 etc.

### 3. Requirements

#### 3.1 Oven:

- 3.1.1 Stainless steel construction. Maximum dimensions 110" H X 86" W X 67" D.  
Hood overhang=31" maximum
- 3.1.2 Self contained steam system.
- 3.1.3 Capacity to hold two single or one double oven rack.
- 3.1.4 Equipped with "soft start" heavy-duty rack lift and jam warning system.
- 3.1.5 Programmable digital control panel:
  - Auto on/off control
  - Auto vent
  - 99 programmable menus (recipe)
- 3.1.6 Built-in rollers & levelers.
- 3.1.7 Field reversible bake chamber door.
- 3.1.8 Prison safety package shall be provided:
  - Lockable baking chamber
  - Tamper proof S.S screws for all exposed areas including the back panel.
  - Exterior control panel covered by a stainless steel lockable door.
  - Interior oven disconnect and alarm activation switch.
  - Exterior audio alarm
  - Stainless steel security enclosure (or cage) from top of oven to ceiling with lockable service doors.
  - Interior and exterior door release handle.
- 3.1.9 Electrical: 208-240 V/3 PH/60 HZ  
120 V/ 1 PH/ 60 HZ

- 3.1.10 Burner shall be rated at minimum 300,000 BTU/Hr with automatic pilot lighting.
- 3.1.11 Water connection and drain placement as appropriate for the installation.
- 3.1.12 Type1 USDA compliant exhaust hood with grease filter.
- 3.1.13 Unit shall be equipped with viewing window to monitor the baking.
- 3.1.14 Heavy-duty rack lifter with minimum of 2,000 lb capacity, suspended lift type (turntable is not acceptable). Lifter shall have rack jamming warning system.
- 3.1.15 Oven floor design shall allow easy loading of the baking racks.
- 3.1.16 Serviceable heat exchanger.
- 3.1.17 The oven shall be equipped with status indicator lights.
- 3.1.18 All equipment furnished normally as standard, unless superseded by the requirements of the bid, shall be provided.
- 3.1.19 The new equipment shall fit the intended installation site.
- 3.1.20 Lifting mechanism shall allow the use of existing Baxter's oven racks (Ref. BDRSB series). Any modification or adjustment to standard equipment shall provide same level of performance as the standard unit.
- 3.1.21 Unit shall be approved for zero clearance for combustible surfaces, sides and rear.

#### **4. Oven Racks:**

##### **4.1 Dimensions:**

Double Side Load: Overall Width= 28.38", Overall Depth= 36", Overall Height=69.8"

Single Side Load: Overall Width= 28.38", Overall Depth= 18", Overall Height=69.8"

##### **4.2 Capacity: 18" X 26" pan, # of pans as specified in purchase order.**

##### **4.2 Heavy duty stainless steel construction**

##### **4.3 Swivel casters with permanently lubricated bearings, rated for 515 °F.**

##### **4.4 Double oven racks shall be interchangeable with existing ovens (Brand-Baxter; Model BXA2G), and existing oven racks (Brand-Baxter; Model BDRSB series).**

#### **5. Safety Compliance:**

5.1 Design shall be certified by the American Gas Association and comply with applicable requirements of the National Fuel Gas Code (latest version).

5.2 All equipment shall be constructed to applicable U.L, NSF, and NFPA standards.

#### **6. Quality Assurance:**

6.1 Equipment shall be delivered free of any physical damages.

6.2 Prototypes or floor models shall not be acceptable.

# Contractor's License Requirements

## Solicitation Number: \_\_\_\_\_

### **Introduction**

This solicitation includes the installation of new equipment at the designated site. California law requires the prime contractor and their sub-contractor(s) to possess a valid Contractors License (s), of the proper classification, at the time of bid opening. (Business and Professions Code, B&P 7028.15)

### **Statement of Work**

The following describes the work to be performed and defines the responsible parties:

#### **State Responsibilities:**

1. State designated officer will identify the location, where the equipment shall be installed.
2. State shall provide electrical, gas, and water (@ 50 psi minimum) connections in close proximity of the unit.
3. State shall provide water drain in close proximity of the oven.

#### **Contractor'(s) Responsibilities:**

1. Supplier shall furnish and install double rack oven. Installation shall be a turnkey operation.
2. Supplier shall unload and uncrate the equipment.
3. Supplier shall provide a forklift (or other equipment) to set the oven in place.
4. All necessary hardware and parts for a complete installation shall be provided.
5. Supplier shall be responsible for all plumbing work.
6. Assembly shall be in accordance with the manufacturer's installation instructions.
7. A factory technician or factory authorized installation technician must be on site to supervise and approve the installation.
8. Supplier shall install all necessary ducting.
9. Supplier shall make all adjustments to the installed equipment and make the equipment optimally operational.
10. Supplier shall be responsible for permits or licenses as required by City, State, and Federal Agencies.
11. Installation shall meet Federal, State, and local government codes in effect at the time of the installation.
12. Installation shall comply with Seismic Design Category "D" and structure occupancy category III as per California Building Code (CBC).
13. Supplier shall dispose off all debris.

**License Requirements**

One (or more) of the following licenses is required for this solicitation:

Classification(s): Class A, Class B, C-36, C-10, C-20

Contracting law states that a prime contract can not be awarded to a specialty contractor whose classification constitutes less than a majority of the project. B&P 7059(b). However, required work that is incidental and supplemental to the project may be undertaken by the specialty contractor even though that contractor does not hold those specific specialty licenses. Non-incidental work must be performed by a licensed subcontractor.

A specialty contractor may use subcontractors to complete the incidental and supplemental work, or he may use his own employees to do so. (California Code of Regulations CCR 831)

**Prime Contractor (Bidder)**

Contractors License Number 552923  
 License Issued to Whom? RANDOL M EADS  
 Relationship of Bidder to License Holder SELF  
 Classification B  
 Expiration date 1-26-09

**Subcontractors**

Name/Address	License No.	Classification	Expiration date
ALL COMMERCIAL SERVICES	510200	B-C10-C36-C38	5-31-09

**Other**

The bidder shall comply with the Laws and Regulations governing the payment of prevailing wage.

The bidder certifies that every employer is insured against liability for workman's compensation before commencing performance of the work.

A joint bid (see definition in the solicitation's "General Provisions") requires a joint venture license.

Contractors are legally required to maintain a form of security deposit as a guarantee that they will perform in a good and workmanlike manner. Specific requirements are outlined elsewhere in the solicitation.

The state reserves the right to approve subcontractors.

The bidder certifies the accuracy of the representations made on this form.
